

# ENVIRONMENTAL POLICY STATEMENT

Wingate Electrical plc (Wingate) believes that environmental issues are of great importance.

Consequently Wingate is committed to implementing and maintaining a management system that delivers continual improvement, prevents pollution and demonstrates friendly environmental performance suited to the nature and scale of its activities, products and services.

These commitments are achieved by complying with the company's procedure for the preparation of 'Policy Statements – Issue & Review' whereby this statement and the objectives and targets are aligned to relevant specifications by:

- Complying and whenever appropriate exceeding legal requirements, relevant standards and practices.
- Maintaining documentation and records, including management review minutes, that support implementation and maintenance of these objectives
- Communicating, briefing and training both Wingate personnel and those working for the company in our environmental objectives, systems and actions appropriate to their activities and interaction with Wingate.
- Making this policy available to everyone via the company's website [www.wingate.co.uk](http://www.wingate.co.uk)
- Regularly reviewing this policy, minimum annually, and when changes occur to relevant legislation, risk assessment, rules, regulations, specifications, contracts and changing work activities.
- Continually striving to improve our environmental performance.

For & on behalf of Wingate Electrical plc

Paul Frewin  
Managing Director
