

## QUALITY POLICY STATEMENT

**Wingate Electrical plc** provides a service to major construction industry clients in the design, procurement, installation, testing, pre-commissioning and commissioning of electrical, mechanical and instrumentation services with trained, qualified and competent staff.

It has taken the Policy decision that these activities shall be undertaken in a manner that complies with the requirements laid down by industry standards for competent working practices. The Company is committed to building professional relationships with its clients, satisfying their requirements and expectations, and to the continual improvement of the Company's systems, processes and service provision.

Wingate Electrical plc fully complies with the contractual, statutory and regulatory requirements of each project and, to meet this objective, Wingate Electrical plc will utilise technical expertise to identify and meet client requirements and to communicate freely with all concerned.

To achieve these objectives the Company operates and maintains a Quality Management System which is registered as meeting the requirements of the BS EN ISO 9001:2000, and which makes all employees responsible for its effective operation.

Objectives are set and reviewed at the management review meetings by Wingate Electrical plc directors and senior management to ensure that:

- staff training needs are being met
- employees are aware of the quality objectives
- Wingate Electrical plc's clients' views of Company performance are reviewed in order that quality improvements can be made
- internal audits of its processes will ensure that compliance is maintained

The Quality Manual gives an overview of the Quality Management System, and is supported by quality procedures, work instructions and forms which are made available to all staff directly concerned with the related activities.

This Policy and objectives will be reviewed for continuing suitability on an annual basis and communicated throughout the Company.
