

M & E SERVICES

Providing Mechanical & Electrical solutions

PROJECT SOLUTIONS

We begin by **Listening**, we assist through **Experience** and we resolve with **Expertise**.

We understand the need to work **Safely**, control costs and comply with programme constraints in a demanding environment.

Our activities include:-

ELECTRICAL

- ▲ Design
- ▲ Project Management
- ▲ Survey Works
- ▲ Incoming Services / LV Distribution
- ▲ Power Supply
- ▲ Generator Installations
- ▲ UPS Installations
- ▲ Lighting including Emergency Lighting
- ▲ Lightning Protection
- ▲ CCTV
- ▲ Access Control
- ▲ Intruder Alarms
- ▲ Door Entry Systems

- ▲ Fire Alarms
- ▲ Telecommunications
- ▲ VA/PA Systems
- ▲ Containment
- ▲ Earthing and Bonding
- ▲ Testing and Commissioning
- ▲ Maintenance

MECHANICAL

- ▲ Public Health
- ▲ Hot and Cold Water Installations
- ▲ Heating and Ventilation
- ▲ Ductwork
- ▲ Gas Installations
- ▲ Water Treatment
- ▲ BMS Systems

PROJECT SAFETY

There is **No Compromise** on safety.

Health & Safety is an active Management Board objective and all employees are thoroughly briefed prior to each new work activity. In consultation with our operatives we actively review our Safe Systems of Works, Method Statements and Risk Assessments. These can be modified to suit an individual client requirement.

We are an active stakeholder in the Behavioural Safety Scheme (SUSA) and have SUSA approved trainers.

From April 2003 to April 2005 we were awarded **NINETEEN Safety Awards**.

19
AWARDS

CASE STUDY

Tubelines

- ▲ Awarded the Mechanical & Electrical package for the refurbishment of the Ticket Hall, Platforms, Escalators, Relay Rooms and Switch Rooms at Stockwell Station on the Northern Line.
- ▲ All works working within a four-hour night shift requiring strict labour, plant and materials organisation to maximise production.
- ▲ All staff and operatives are trained in accordance with London Underground requirements.

PROJECT EXPERIENCE AND EXPERTISE

We operate with a determination to deliver specific or ongoing solutions on time and with minimum disruption.

Our team consists of skilled individuals who are long serving in the Construction/M&E industry. Their experience within the often difficult **Operational** constraints is invaluable.

They are fully qualified to current industry standards and are fully conversant with the latest Health and Safety regulations

We have expertise in various industry sectors, which include:-

- ▲ Commercial Refurbishment
- ▲ Facilities Management
- ▲ Rail Infrastructure projects including Main Line and Underground Refurbishment
- ▲ High Street environment including Shopping Centres
- ▲ Aviation related Installations and Maintenance
- ▲ Warehouse/Chilled Storage facilities
- ▲ Car Park/Multi-storey projects
- ▲ High Mast Lighting

CASE STUDY

Car Parks

- ▲ We have completed a number of multi-storey car park projects where the mains distribution and lighting requirements have been incorporated into our scope of works.
- ▲ We have also completed stand-alone car parks as well as car parks attached to Retail Developments and to PFI Hospitals.

PROJECT FINANCE

We have highly experienced Commercial Personnel who are well versed in many different Forms of Contract. These include but are not limited to Cost Re-imbursable and Traditional Lump Sum.

We can, if requested, provide full **Cost Transparency** and regularly monitor prices to ensure competitiveness and value for money.

Our approach Commercially is both pro-active and non-confrontational as we fully understand the requirement to keep our Client continually informed of Financial issues that may effect account values.

This facilitates our aim to agree project values promptly after completion.

CASE STUDY

Airline VIP Lounge

Emirates Airline: Gatwick Airport

- ▲ Awarded the Electrical package for the Emirates VIP Lounge (airside) against a 20 week programme period.
- ▲ Our own highly experienced airport-trained staff and operatives who undertook this project have also worked on many other airport activity projects over many years.

ABOUT US

Established in 1973 we have developed our core business from the Supply and Installation of Power and Lighting Distribution systems to incorporate Electrical Installations, Electrical Maintenance and Plumbing services.

Our traditional client base has also developed to include clients in **Rail, Airports, Utilities and Government Departments** and our involvement continues to be invited on high profile projects throughout the UK – Terminal 5, Heathrow Airport & The New National Stadium, Wembley are examples of the trust we appreciate and responsibility we accept.

Our priority is **our people** at all levels and our commitment to their training is measured by their performance. In addition to formalised training programmes for individual job skills we manage and monitor a consistent approach to **Health & Safety training** that benefits our staff, project partners and, where relevant, members of the public.
